montawms®
e-commerce software

MontaWMS: market leader

Monta is *the* e-commerce organisation that handles logistics for over 1,700 webshops. With more than one thousand employees working in fifteen independent warehouses, we handle the processing and delivery of webshop orders to customers all over the world. Our developers - 75 by now - have been working on and improving our software for over twenty years. Now, this software is available to external customers as well in the form of MontaWMS.

MontaWMS is an all-in-one e-commerce and logistics solution. In the twenty years that we at Monta have been using MontaWMS ourselves, we have managed to find effective solutions to various challenges.

By choosing MontaWMS, you will not only experience the many benefits of our software for yourself, but you can also adopt various hardware systems.

Our R&D department is constantly hard at work to further optimise and expand these hardware systems.

Discover how MontaWMS will contribute to the growth of your business!

The Benefits of MontaWMS

Software developed using practical experience

For over twenty years, we have been using and developing MontaWMS based on our own practical experiences.

Software and hardware

Our R&D department is constantly hard at work to further optimise and expand our hardware systems.

Real-time insights

Get real-time insight into your order flows per customer, warehouse, storey or zone.

Various interfaces available

Connect to a wide variety of transporters, marketplaces, webshop systems and ERP systems.

Cloud-based software

The intelligent cloud-based software plots the best routing for optimal efficiency.

7 Core Principles of MontaWMS

1

Gamification
- ✓ Montacoins
- ✓ Goodieshop

2

Routing
- ✓ Warehouse mapper
- ✓ Warehouse viewer
- ✓ Warehouse compartment order
- ✓ Inbound putaway

3

RMA
- ✓ Returns portal with exchange functionality
- ✓ Returns app in warehouse

4

Purchasing Recommendations
- ✓ Purchasing recommendations with purchasing calendar
- ✓ Purchasing AI
- ✓ Smart stock

5

Shopping Cart & Transporters
- ✓ Shopping cart integration for various platforms
- ✓ Pick up points
- ✓ Time slot delivery check
- ✓ Shipper options
- ✓ Interfaces with various transporters
- ✓ Volume contracts with transporters
- ✓ Access to transporters' API functions

6

Multi-Warehouse/ -Country
- ✓ The WMS can split orders between several warehouses
- ✓ The WMS is suitable for multi-country, so orders can be shipped to destinations in multiple countries

7

WCS
- ✓ Pick to Light
- ✓ Put to Light
- ✓ E-check wall
- ✓ Hand scanners
- ✓ Connections with various types of robotisation
- ✓ Autostore/Kardex
- ✓ Automatic packing machines

Possibilities

With MontaWMS, we offer a range of soft- and hardware solutions. The software and hardware integrate seamlessly, resulting in an optimally efficient picking process.

Software

With MontaWMS, we offer a wide range of software functionalities. Besides the picking process, our software can also control various hardware systems such as Pick to Light, Put to Light and robotic systems.

- ✓ Shopping cart integration shippers
- ✓ Transporter shipping matrix
- ✓ Track and trace
- ✓ Registering returns, RMA Module
- ✓ Print your own shipping labels
- ✓ Emails in your own corporate style
- ✓ Barcode scanner with Android picking apps
- ✓ Inbound app
- ✓ E-check app
- ✓ E-check added products
- ✓ Returns app
- ✓ Purchasing recommendations
- ✓ Warehouses and locations with optimal pick routing
- ✓ Fast lane shipping
- ✓ Cycle count

- ✓ Replenishment
- ✓ Carrier management with inventory management
- ✓ Serial number registration
- ✓ Drop shipment support
- ✓ Automated work instructions for staff
- ✓ E-check wall app
- ✓ Put-to-light software
- ✓ Pick-to-light software
- ✓ Multi-product locations
- ✓ Surprise pack (wrapping paper/custom text)
- ✓ Warehouse optimisation
- ✓ Gamification with Montacoins
- ✓ Montacast
- ✓ API for robotic systems

What do you get, besides the WMS itself?
- ✓ Purchasing system/inventory recommendations
- ✓ Returns application
- ✓ Shopping cart integration
- ✓ Warehouse configuration
- ✓ WCS

Hardware

In addition to our software, we can also produce, deliver and maintain various hardware systems. This hardware is used on a daily basis at our various Monta sites to make the picking process even more efficient. Our in-house R&D department is constantly hard at work to further optimise and expand these hardware systems.

The hardware that we produce ourselves:

- ✓ Newland MT90 handscanner with Android apps
- ✓ Pick to Light
- ✓ Put to Light
- ✓ E-check Wall
- ✓ Robotic systems
- ✓ Roller conveyors
- ✓ Freight elevators
- ✓ Working tables

Quick launch
Depending on the project, MontaWMS can be fully operational in your warehouse in mere weeks.

Save costs
Save costs by organising your warehouse more efficiently with the help of smart routing.

Satisfied staff
Using our WMS system makes your staff's work more enjoyable and fun!
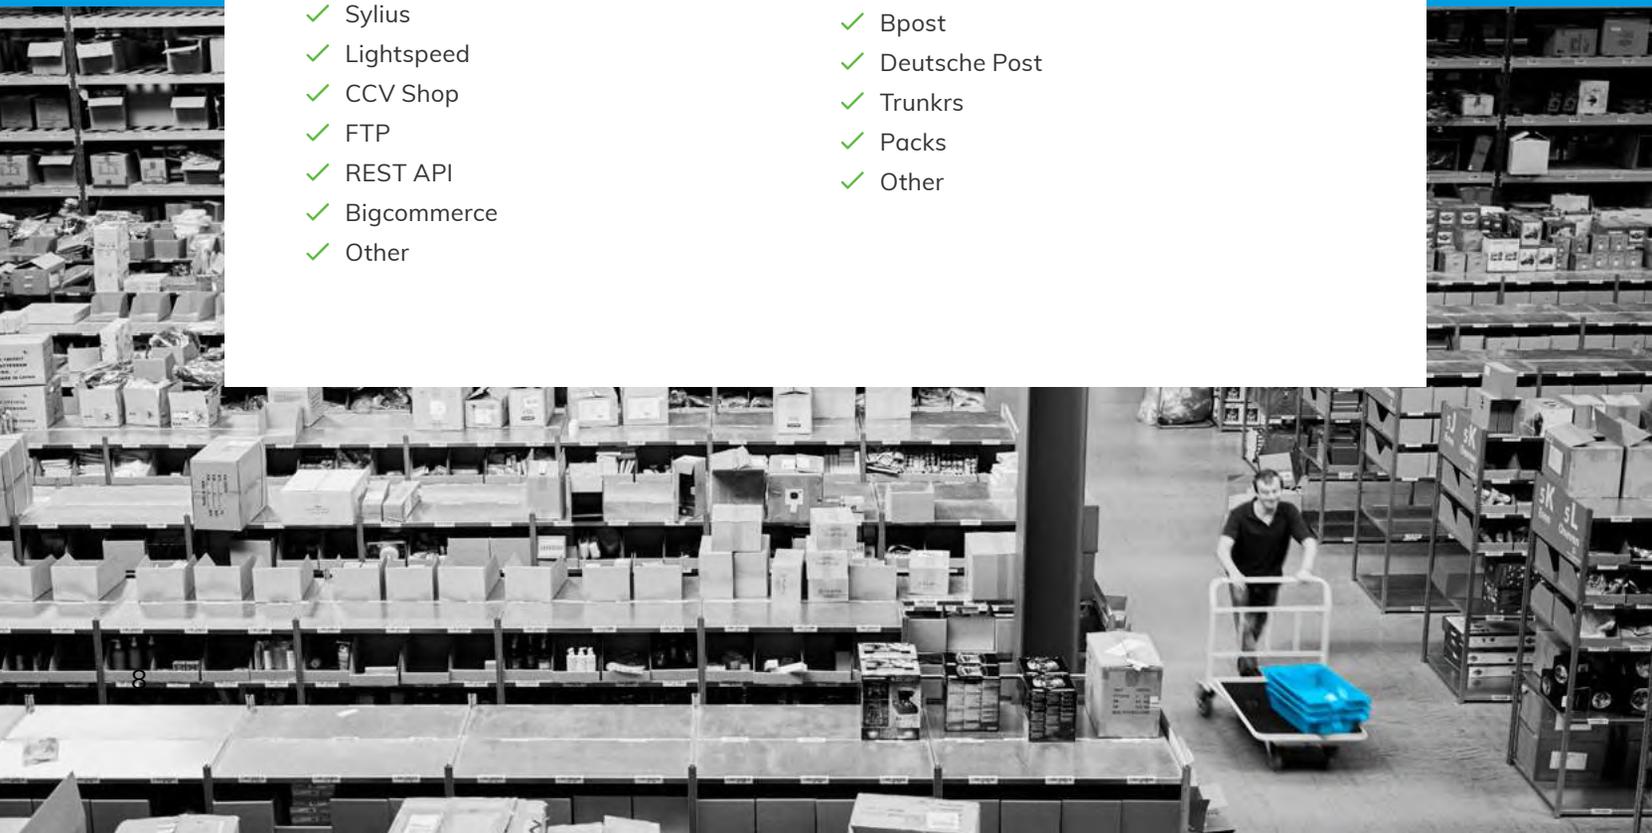

Links

Connect to various webshop systems

Our software makes it easy to link with various webshop systems. We can also develop a custom link for you.

- ✓ Magento 2
- ✓ Shopify
- ✓ Mijnwebwinkel
- ✓ Woocommerce
- ✓ Sylius
- ✓ Lightspeed
- ✓ CCV Shop
- ✓ FTP
- ✓ REST API
- ✓ Bigcommerce
- ✓ Other

Transporters

Link your webshop and warehouse to our selection of transporters. Via the shipping matrix, you can select transporters for each of your sales channels.

- ✓ DHL
- ✓ PostNL
- ✓ DPD
- ✓ UPS
- ✓ Bpost
- ✓ Deutsche Post
- ✓ Trunkrs
- ✓ Packs
- ✓ Other

Connect to various international marketplaces

Our systems can easily connect to various major international marketplaces. These include the Dutch giant Bol.com, as well as various national versions of Amazon.

- ✓ Bol.com
- ✓ Amazon.NL/DE/FR
- ✓ ManoMano.FR
- ✓ ChannelEngine
- ✓ Mirakl
- ✓ Decathlon
- ✓ Blokker
- ✓ FonQ
- ✓ Other

Furthermore, it is possible to connect to various ERP systems, including:

- ✓ Exact
- ✓ SAP
- ✓ Oracle
- ✓ Unit4
- ✓ Exact Globe
- ✓ Logic4
- ✓ Afas

active countries

MontaWMS is active in Belgium, France, the United Kingdom, Germany and the Netherlands

Akzonobel

'For us, the MontaWMS turned out to be the perfect solution. We were one of the first companies to start using this amazing WMS. Where necessary, we were quickly able to customise the system to suit our needs. After implementing MontaWMS, we are ready for the future and can easily service various clients from one central stock.'

Raymond Vlietstra
Key Account Manager, Akzonobel

BALR.

'We chose MontaWMS because of the combination of IT and logistics it offers. Monta has helped us restructure our processes with a focus on efficiency, effectiveness and convenience. Servicing our own stores and international B2B clients has become easier and more insightful. Employees can now collect orders and conduct inventory management in a user-friendly manner.'

Olaf Berendsen
Director of operations, BALR.

Makro Kerstpakketten
